

## Media News

### World Tunnel Congress 2023 Attendance

With the WTC 2023 (World Tunnel Congress) taking place in Athens, Greece, from 12th to 18th May 2023, our Founder & CEO, Dr. Angus Maxwell will be in attendance. He will be delivering a talk on the MissionOS to the Working Group 22, who look after Information Modelling in Tunnelling. The Group is developing a schema for IFC data transfer which is appropriate to tunnel within a BIM environment. Dr. Angus Maxwell will be calling on the company's experience on projects, such as HS2 and NEOM amongst others.

On this occasion, the WTC event will focus on "Expanding Underground knowledge and passion to make a positive impact on the world". It'll also provide and showcase recent innovations and implementation of technology to efficiently manage underground infrastructure.

For those planning in going, do reach out to him at any time, to learn more about the MissionOS software and how it has been at the forefront of developing GIS enabled tunnelling BIM for many years.
